*The kit that started it all,
The Classic Lee Loader*

* Calibers requiring considerable force for sizing.

Classic Lee Loader

More shooters have chosen the famous Lee Loader for their first reloading tool than any other. They realize it is all they need for good, accurate ammunition. In fact, at one time ammunition loaded with a Lee Loader held a world record listed in the Guinness Book of World Records for more than seven years. Millions upon millions of rounds have been reloaded with the famous Lee Loader. It's the perfect tool for those who wish to simply try reloading, because it will pay for itself in just an hour or two. Find out for yourself how much fun it is to reload with the Lee Loader. Everything you need to begin loading one caliber! Use to reload cases that have been fired from your gun.

RELOADING IS AN ENJOYABLE HOBBY, saves you money — and no manufacturer saves you more than Lee Precision, Inc. **Our mission is simple: produce the best American made value in reloading tools.** Our great prices come from patented, innovative designs. We are thankful to say that Lee Precision products are cast, machined and assembled in the USA.

A reloading press and a set of Lee Dies are all you need to start reloading. Lee Dies come complete with powder dipper, shell holder and instructions, along with comprehensive load data that tells

you how much and what type of powder to use. Dies and presses last a lifetime, so buying what your budget allows makes the most sense. For those with a workbench, consider our Lee Bench Plate for the ultimate convenience in mounting your presses. If you don't have a workbench, consider the Lee Reloading Stand, compact and very sturdy. If you have no loading equipment and are just getting started, you must consider that these basic steps need to be taken below.

Check out our complete line of reloading and casting equipment on our website, then visit your local merchant. If not blessed with a local dealer, one of the many online dealers will quickly and economically fill your order.

RELOADING STAND | BENCH PLATE

LEE
LEE PRECISION, INC.

Lee Reloading Stand

At last, a reloading stand built just for your reloading needs. The sturdy powder coated steel stand places your press at the perfect counter stool or standing height. Three-leg design assures absolute stability regardless of the floor condition. Rubber tipped legs suitable for any surface.

The thick steel top is fitted with the patented, quick change Lee Bench Plate System with steel base block to fit all Lee metallic presses.

The stand also includes a sturdy steel shelf with two bench plate receivers that will neatly and securely store your extra presses or mountable accessories. Each leg has eight mounting holes that allow you to accessorize your stand with a multitude of bins, shelves or accessory racks.

Dimensions 39" high x 26" wide x 24" deep

90688 215.00

CONCRETE BLOCK NOT INCLUDED

ACCESSORIES

Die Rack

Sturdy steel rack with fasteners designed for the Lee Reloading stand. Conveniently holds your dies at the ready, especially helpful when loading small batches of ammo with frequent die changes. Can also be wall or bench mounted.

90680 20.00

Bin and Bracket

Sturdy steel bracket and parts bin. Includes fasteners to allow direct mounting to the Lee Reloading stand, or workbench. Perfect for holding bullets, cases and loaded rounds.

90687 14.00

Steel Base Block

Rigid, powder coated steel construction. First choice for mounting all current Lee Presses. Works with the Lee Reloading Stand and Bench Plate. Fasteners for mounting one Lee reloading press are included.

90267 17.00

LEE BENCH PLATE

Includes steel base block with holes to mount any Lee press. Powder coated, thick steel plate mounts quickly and securely to any bench or tabletop. Wide steel plate distributes load, adding rigidity to the lightest bench top.

Lee Bench Plate 90251 39.00

JUST REMOVE

AND REPLACE

Patented design allows instant press change. So sturdy you can resize the monster 50 BMG case, then quickly switch to a smaller press for priming or other operations. Trapezoidal base block slides into perfect register and made immovable with the quick tightening of four bolts.

MODERN RELOADING

SECOND EDITION BY RICHARD LEE

LEARN TO RELOAD AMMUNITION THAT'S MORE ACCURATE THAN FACTORY NEW ON YOUR FIRST TRY

THE SECOND EDITION OF MODERN RELOADING IS A SUMMARY OF A LIFETIME OF EXPERIENCE. NO MATTER HOW KNOWLEDGEABLE YOU ARE, YOU WILL FIND NEW AND INTERESTING INFORMATION IN THIS BOOK. IT IS A REFERENCE BOOK YOU WILL KEEP FOREVER.

OVER 38,000 LOADS covering over 170 cartridges in a new, larger, easier to read format, with velocities for starting loads. This is the best kind of load data — it is supplied by the powder companies.

LOAD DATA SORTED in velocity decending order.

DIPPER, AUTO DISK DATA included for easy setup.

NEW, LARGER, EASIER TO READ FORMAT with computer rendered and dimensioned drawings. Cartridges tabbed for quick reference.

LATEST INFORMATION ON PRESSURE

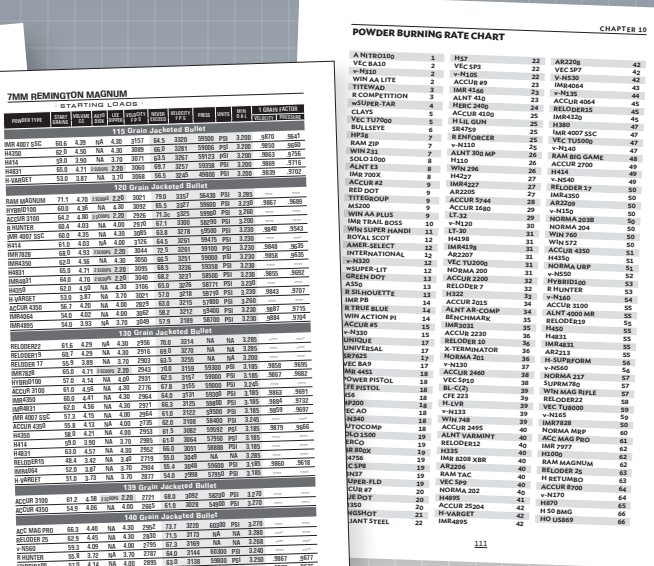

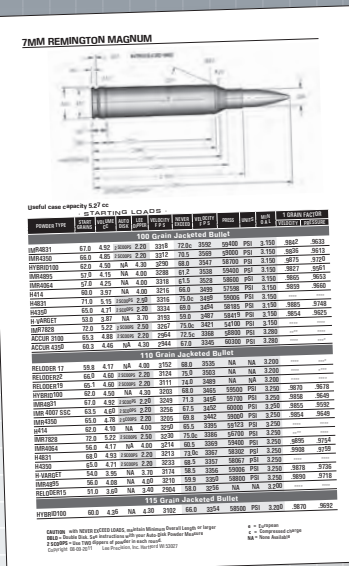

EXCLUSIVE PRESSURE AND VELOCITY FACTORS enable you to accurately calculate pressure and velocity for reduced loads. An absolute necessity for cast bullet shooting.

A NEVER BEFORE PUBLISHED in depth analyses of current load data. It gives you insight into the effects of reducing or increasing a charge.

MODERN RELOADING SECOND EDITION 90277 40.98

Contains everything about reloading, with the world's most comprehensive load data, over 38,000 loads

SELECTING THE BEST HANDGUN DIE SET

Lee handgun dies feature a carbide sizing die — simply the best way to resize straight walled handgun cartridges

Select the **DELUXE PISTOL 4-DIE SET OR BREECH LOCK 4-DIE SET** when using mixed range brass. The Deluxe Set includes the Carbide Factory crimp die. This die allows you to separate bullet seating from the crimping operation. It makes setup much easier and the die has the added feature of a carbide resizer that does a finishing sizing pass on the completed round. This final sizing guarantees that any case that passes through the die will freely and reliably chamber in any gun.

The **CARBIDE & STEEL THREE DIE SETS** work fine when using a quality controlled source of brass, like cases fired only in your gun. More care is required when adjusting the bullet seat and crimp die, as seating and crimping occur simultaneously. Bullet diameter control is important when not using the factory crimp.

Lee Dies reload cartridges better, easier, more accurately and with fewer problems!

CARBIDE FACTORY CRIMP DIE

Carbide ring in base resizes any portion of case that exceeds factory new dimensions. Floating crimp ring is finger adjustable to provide the perfect crimp.

HARDENED STEEL SHELLHOLDER

Others charge \$17.00 for this item!

Exclusive feature to Lee POWDER MEASURE & CHARGE TABLE

Exclusive feature to Lee POWDER THROUGH EXPANDING DIE

Only Lee Dies permit charging the case while expanding the case mouth. Every Lee Pistol Die Set includes this Powder Through Expanding Die at no extra cost. The powder funnel adapter can be replaced with a Lee case actuated Powder Measure (pg. 33) for fully automatic powder charging while the case mouth is being expanded.

Exclusive feature to Lee CARBIDE SIZER

BULLET SEAT & FEED DIE

Carbide Sizer

All Lee straight walled pistol dies have tungsten carbide sizer rings. Carbide is so hard that it can only be ground and polished with diamond wheels.

This hard diamond polished surface eliminates the need for case lubrication—they never wear out. Exclusive contour grind sizes closer to the rim than any other brand.

The collet held decapper is nearly unbreakable even if misadjusted or depriming crimped military cases.

The decapper clamp collet accurately centers the decapper in the die. Should you over stress it for any reason, it harmlessly slides up without breaking. Easily reset with no limit to the times it can be reset.

Bullet Seat and Feed Die

Universal free floating seating plug works with nearly any point style bullet. No need to change seater plugs for different nose types. Finger adjustable seating depth eliminates fumbling with pliers, lock nuts and screwdrivers to make simple seating depth adjustment.

ONLY LEE DIES COME COMPLETE WITH POWDER MEASURE and CHARGE TABLE

LEE
exclusive feature

PISTOL DIE SETS

LEE DELUXE PISTOL 4-DIE SET 78.00
CARBIDE FULL LENGTH SIZING DIE, POWDER THROUGH EXPANDING DIE, BULLET SEAT AND FEED DIE AND CARBIDE FACTORY CRIMP DIE.

BEST VALUE FOR BREECH LOCK PRESSES

LEE BREECH LOCK CARBIDE 4-DIE SET 85.00
COLOR CODED SMART LOCK BUSHINGS FOR NO TOOL DIE ADJUSTMENT, CARBIDE FULL LENGTH SIZING DIE, POWDER THROUGH EXPANDING DIE, BULLET SEAT AND FEED DIE AND CARBIDE FACTORY CRIMP DIE.

Combines the world's most popular carbide three-die set with the Lee Carbide Factory Crimp Die at a great price. No other die set at any price produces more reliable or accurate ammo.

By separating seating and crimping operations, you benefit by greatly simplified adjustment. More importantly, the Carbide Factory Crimp Die post sizes your case, assuring any round that passes through the die will chamber properly in your gun. This, plus all the other exclusive features — make this the best die set money can buy!

LEE CARBIDE PISTOL 3-DIE SET 56.98
CARBIDE FULL LENGTH SIZING DIE, POWDER THROUGH EXPANDING DIE AND BULLET SEAT & FEED DIE.

BEST VALUE FOR BREECH LOCK PRESSES

LEE BREECH LOCK CARBIDE 3-DIE SET 65.00
COLOR CODED SMART LOCK BUSHINGS FOR NO TOOL DIE ADJUSTMENT, CARBIDE FULL LENGTH SIZING DIE, POWDER THROUGH EXPANDING DIE, BULLET SEAT AND FEED DIE AND CARBIDE FACTORY CRIMP DIE.

We use a solid carbide insert, ground to a special contour that does not leave the objectional belt mark on the case, common to ordinary carbide dies. With a carbide sizer, no case lube is needed, and you don't even have to clean your cases.

NO NEED FOR A TAPER CRIMP DIE; BETTER ACCURACY WITH LEE DIES.

Taper crimp dies are used to correct the problems caused by the improper expanding plug design or adjustment. They distort the bullet shank and reduce accuracy. Because the Lee Expander flares the minimum amount, consistent with easy bullet insertion, all of the flare is removed with the bullet seating die, thus eliminating the need for a taper crimp die.

LEE STEEL PISTOL 3-DIE SET 56.98
STEEL FULL LENGTH SIZING DIE, POWDER THROUGH EXPANDING DIE, BULLET SEAT AND FEED DIE, AND RESIZING LUBRICANT PACKET

Same features as our premium carbide sets, except the case must be lubricated.

STORAGE IS EASY

LEE DIES ARE PACKED IN A FITTED BOX THAT ALLOWS DIES TO BE RETURNED TO THE BOX ADJUSTED WITH OR WITHOUT THE LEE BREECH LOCK BUSHING

Taper Crimp Die

The Lee Taper Crimp Die is hardened steel, designed to overcome crimp problems caused by poor die design. These dies offer little or no advantage when used with 1986 or newer Lee Dies. Jacketed bullets must have a crimp groove.

TAPER CRIMP DIE 13.98

Collet Style Factory Crimp Die

Popular with cast bullet shooters that wish to use oversize bullets; also very popular when reloading heavy recoiling revolvers. No other crimping system can apply as secure a crimp at the Lee Collet style Factory Crimp Die. No crimping groove required in jacketed or cast bullets, this die is so powerful it forms a crimp groove if one is not present.

COLLET STYLE CRIMP DIE 15.98

Short Bottle Neck Collet Style Factory Crimp Die

Incorporates a collet to apply a rifle type crimp to the case. Makes these very difficult to crimp cartridges a delight to reload. Bullets do not need a crimp groove, as the collet is so powerful it will form one.

BOTTLE NECK PISTOL FACTORY CRIMP DIE

25.00

CARBIDE FACTORY CRIMP DIE

Lee Carbide Factory Crimp Die

A CARBIDE SIZER SIZES THE cartridge while being crimped, so every round will positively chamber freely with factory like dependability. The adjusting screw quickly and easily sets the desired amount of crimp. It

is impossible to buckle the case as with a conventional bullet seating die. Trim length is not critical so this extra operation takes less time than it would if cases were trimmed and chamfered.

Revolver dies roll crimp with no limit as to the amount. A perfect taper crimp is applied to auto-loader rounds. The crimper cannot be misadjusted to make a case mouth too small to properly head-space. A firm crimp is essential for dependable and accurate ammunition—it eliminates the problems of poor ignition of slow burning magnum powders.

HAVE A BREECH LOCK PRESS?

Breech lock bushings fit all Lee Breech Lock presses. Allows instant, accurate die changes.

Breech Lock Bushings

90600 2-Pk **16.00**
Perfect with Lee Lock Rings

Spline Drive Bushings

Breech lock quick change bushing with integral lock collar provides unmatched precision and convenience when adjusting dies. Split clamp positively locks die into position.

90063 2-Pk **16.00**

Buy more for greater savings

90095 4-Pk **27.00**

SMART LOCK BUSHINGS

Standard on Breech Lock Die Sets. No tool die adjustments.

91933 4-Pk **27.00**

COLOR CODED FOR QUICK, POSITIVE DIE SELECTION

LEE ULTIMATE SPLINE DRIVE LOCK RINGS

are the perfect choice when using older style presses that require screwing your dies in and out for every operation. The new split clamp spline drive makes all other lock rings obsolete and clumsy to use.

The socket head cross bolt, even when lightly tightened, applies a vise-like grip on your dies. No tiny set screws that easily strip or damage your die threads.

We added the famous Lee "O" ring because, no matter how securely you have the lock ring clamped to the die, it will loosen in the press frame during operation without the friction of the "O" ring. The "O" ring allows you to finger tighten into your press and will never loosen during operation. Kit includes a wrench for easy die removal.

ULTIMATE LOCK RINGS

90566 3 pack with wrench **13.98**
91640 4 pack color coded. **17.98**
Lock ring wrench sold separately

LOCK RING WRENCH

90093 **3.98**

A handy, compact wrench makes the new lock rings a delight to use. Spline drive lock rings are now standard equipment on all Lee dies. Update older Lee Dies or competitor's dies.

NOW STANDARD ON ALL LEE DIES

SPLINE DRIVE LOCK RINGS (3-PACK)

90534 **5.98**

These lock rings are perfect for presses equipped with removeable die heads found on older progressive and our turret presses. Smallest outside diameter lock rings available. Captive friction "O" ring provides immovable die position with just finger tightening. Handy, no tool required for die adjustment.

WORKS ON TIGHT
TOOLHEADS

FLAT 4-DIE BOX **90422** **6.98**

BIG GUN INSPIRED BREECH LOCK QUICK CHANGE STANDARD ON ALL LEE SINGLE STATION PRESSES

Switch dies with a $\frac{1}{6}$ turn rather than fourteen or more turns. Loading with a breech lock equipped press is as convenient as a Turret Press, when loading small quantities of ammunition. Interrupted three-start thread assures dies will return and lock into the exact same position. If cost is more important than convenience, you can leave the Breech Lock bushing locked in the press and screw dies in and out like a conventional press.

Change dies

Universal Case Expanding Die

Gently flares the case mouth to accept cast bullets without shaving. Works great to prevent damaging the moly and low friction coatings found on today's high performance jacketed bullets. Includes neck plugs for .22 cal through .45 cal. Works on everything from the 22 Hornet to the largest Ultra Mag. Costs so little and works so well you can't afford to be without one.

Lee Bulge Buster Kit

Utilize all your brass by removing annoying bulge rings

Assure your mixed brass is bulge free with the Bulge Buster Kit and appropriate Lee Carbide Factory Crimp Die. This push through die adapter will quickly remove the annoying bulge rings that shell holder constrained dies simply can't reach. The Bulge Buster Kit includes extension sleeve, push through punch, catch container and complete instructions. And it's fast — you can reprocess your cases as quickly as you can handle them. Lee Collet Necksizing Dies

For best accuracy, longest case life and no resizing lubricant required. Only the neck of the case is resized. The body is untouched—retains perfect fit to your gun's chamber. Cases should have been fired in your firearm only. Benchrest shooters' first choice; there is no other die that can produce a more accurate cartridge.

IF YOU INTEND TO RELOAD CASES FIRED IN OTHER GUNS
OR YOU ARE RELOADING FOR MORE THAN ONE GUN,
SELECT THE

Lee Ultimate Rifle Die Set

The Ultimate Set includes a full length resizing die that allows you to restore any case to factory original dimensions so that you can fire form in your gun and then reload using the superior Collet neck sizing die. Ultimate Rifle Die Sets include the LEE FACTORY CRIMP DIE.

ULTIMATE RIFLE DIE SET see page 13

FACTORY CRIMP DIE

THE LEE FACTORY CRIMP DIE is the only effective way to crimp bottleneck rifle cartridges. Our Factory Crimp Die should be used on all loads used for hunting. Applying a factory crimp will always improve the utility of the cartridge, and in most cases, will also improve the accuracy.

The Lee Factory Crimp die crimps the bullet in place more firmly than any other tool. It is impossible to buckle the case as with regular roll crimp dies. Trim length is not critical. Tests demonstrate that even bullets which have no cannelure will shoot more accurately if crimped in place with the Lee Factory Crimp Die.

Factory ammunition is often more accurate and better able to withstand rough handling because the bullet is firmly crimped in place. A firm crimp improves accuracy because pressure must build to a higher level before the bullet begins to move. This higher start pressure insures a more uniform pressure curve and less velocity variation. Even powder selection is less critical. Until now, handloaders seated the bullet to touch the rifling to achieve similar results. This is not always possible nor desirable. The Lee Factory Crimp Die is included at no extra charge with Lee PaceSetter 3-Die Sets and Ultimate Rifle Die Sets. It's just another added value that only Lee Dies offer.

LEE PACESETTER RIFLE DIES

LEE
LEE PRECISION, INC.

BEST

INTERNAL FINISH IN THE INDUSTRY

**ALL LEE DIES ARE
MACHINE HONED TO THE
SMOOTHEST POSSIBLE FINISH**

Don't confuse this with the surface polish that's used by most manufacturers. A polish simply makes a shiny surface. It's like trying to sand wood without backing under the sandpaper. The surface in Lee dies is progressively honed to a fine finish with no waves or ripples.

LEE RIFLE DIES FEATURE THE LEE EasyX EXPANDER

Lee Resizing Lubricant

ANOTHER FIRST BY LEE. We purchased the finest automotive deep draw lubricant and had it custom packaged exclusively for us. Lee lube is pleasant to handle and you can thin with water. Non-sticky, non-allergenic. Very little is needed; it goes a long way. Eliminates stuck and dented cases, and makes sizing less work.

2 OZ. TUBE 90006 5.98

**REALLY
GREAT
BUY!**

RGB Dies Compare to other brands costing twice as much and you'll recognize what a fantastic bargain they are. We offer these only to show that when you buy Lee Dies — without all of the extras Lee customers have come to expect — the price is significantly lower, yet the quality is the best. Our tolerance is 50% less than the advertised amount of a popular and expensive brand. We guarantee these dies to be better than any other brand. If for any reason you're not 100% satisfied—just return them to the factory with your sales slip and pay the difference of what you paid and the manufacturer's catalog list price of the dies you want. We will ship them to you with our thanks for trying ours.

These dies are a **Really Great Buy**. They cost less, because like other die makers, we left out \$32.00 worth of extras which are included in our PaceSetter™ dies. Do yourself a favor and check our PaceSetter dies.

RGB Series Dies only 30.98

**GUARANTEED TO LOAD
THE MOST ACCURATE
AMMUNITION
OR YOUR MONEY BACK**

- NO LUBRICATION REQUIRED
- GUARANTEED ACCURACY
- EXTENDS CASE LIFE 10X
- FASTEST TO USE
- NO CLEANING OR LUBING REQUIRED

Lee Collet Dies

There is no loading system that will load more accurate ammunition than Lee Collet Dies. We guarantee it in writing with every set. No one but Lee has ever dared make a guarantee like this — **Smallest group size or your money back**. A collet squeezes the case neck against a precision mandrel for a perfect bullet fit with minimum run-out. No case lube is needed. Cases

last ten times longer, so the savings on only 35 cases will pay for the dies. Maximum accuracy is usually achieved by seating the bullet out far enough to touch or almost touch the rifling. This provides the shot start pressure normally supplied by the crimp. That's why a dead length bullet seater is included to complete the most accurate

reloading system ever made. These dies size only the neck to preserve the perfect fit of fire forming. Only reload cases that have been fired in your gun. Not recommended for autoloaders, slide or lever action guns. See list of sizes on pages 14-15.

Lee Collet Die for neck sizing **49.98**

DIE SETS INCLUDE: COLLET NECK SIZING DIE, DEAD LENGTH BULLET SEATING DIE, SHELL HOLDER, POWDER DIPPER, CHARGE TABLE AND STORAGE BOX. MOST CALIBERS NOT LISTED CAN BE CUSTOM MADE. SEE WEB FOR DETAILS: leeprecision.com/custom-collet-necksizing-die-set.html

Lee Ultimate Rifle Die Set

Choose this die set for maximum versatility. The set features a full length-resizing die to return brass to factory new dimensions, perfect for reloading brass fired in other guns. The Collet Necksizing die is used on your fire formed brass giving you best possible accuracy. No case lube required and cases last almost forever. The Easy Adjust Dead Length Bullet seating die foolproofs the bullet seating adjustment, and assures perfect seating depth every time. The Factory Crimp Die provides a secure crimp on bullets with or without a crimp groove. In most cases, it helps accuracy by providing a uniform higher start pressure and gives the finished cartridge factory-like accuracy and dependability.

The set is complete with shell holder, powder measure and famous Lee load data featuring all common brands of powder organized in an easy to read logical format.

In addition to best accuracy, you get these benefits

- NO CASE LUBRICATION REQUIRED WITH COLLET DIE
- REDUCED OR ELIMINATES CASE TRIMMING
- TEN TIMES INCREASED CASE LIFE
- UNMATCHED SPEED AND CONVENIENCE
- MINIMUM BULLET RUNOUT
- MOST UNIFORM NECK TENSION

LEE ULTIMATE RIFLE DIE SET **74.00**
INCLUDES COMPLETE COLLET DIE SET PLUS
FACTORY CRIMP DIE, FULL LENGTH RESIZING DIE
& RESIZING LUBRICANT SAMPLE.

**Lee Collet Die
accuracy
contributes
to world record**

While competing in a regularly sanctioned 1000 Yard Match on July 25th, 1993, Robert Frey established a new 1000 yard World Record. We're honored he used the **LEE COLLET DIE** to load his record setting ammunition.

World record breaker Robert Frey commented: "The Lee Collet Neck Sizing Die enables me to get top accuracy from my rifles (match and hunting). The design principle of sizing the case neck to a mandrel is unmatched for accuracy potential by any other dies. It is one of the best ways to make all of my rifles shoot their tightest groups."

www.leeprecision.com

RELOADING PRESSES LAST A LIFETIME,

so buying on what your budget allows makes the most sense. You'll never regret buying a value priced press — you'll always have a need for a simple press for miscellaneous jobs.

All Lee Presses feature compound toggle linkages. This permits full length sizing the largest magnum cases with ease. Many feature built-in spent primer catchers, tough powder paint coating and detailed instructions. Under normal use, all our presses will last a lifetime.

For those that simply want the best, you can't beat the "Classic Cast."

SINGLE STATION PRESSES will load nearly any cartridge. Cartridges are loaded in a batch process—for example, 20 cases are de-primed and sized, charged, then bullets seated. This die changing process is sped up by the Lee Breech Lock Quick-Change System. Rifle case reloading is best accomplished on a single station press. For a beginner, a single station press in a kit is the best value.

Compatible cartridges	Rounds per hour
All cartridges up to 460 Weatherby Mag	50
Breech Lock Challenger Press # 90588 pg 19 \$ 117.00	
Breech Lock Reloader Press # 90045 pg. 18 \$ 67.98	
Compatible cartridges	Rounds per hour
All cartridges up to 50 BMG Accepts both 7/8-14 Threaded Dies and Large Series Threaded Dies 1 1/4-12	50
Classic Cast Press # 90998 \$ 190.00 see more information on page 20	

TURRET PRESSES offer single station simplicity with near progressive speed. No need to unscrew dies; the turret advances to the next station automatically. Four pulls of the lever and you have a completed round. Perfect for moderate production of handgun ammunition. Deactivate the Auto-Index feature and you can batch reload the longest rifle cartridges. Twist and exchange the turret, snap in a new shell holder, and you're ready to load your next cartridge.

Compatible cartridges	Rounds per hour
All cartridges up to 460 Weatherby Mag	250
Classic Turret Press # 90064 pg 21 \$ 220.00	
Value Turret Press # 90932 pg. 22 \$ 160.00

PROGRESSIVE PRESS OPTIONS

PRO 1000

PRO 4000

NEW

SIX PACK PRO

2023 PRO 1000 Time proven design updated with rock solid tool head with Smart Lock quick change bushings. Improved tray fed primer feed, simple, reliable and safe with any brand primer. Simplified automatic indexing with no adjustments required. Add a bullet and pull the lever; other operations are automatic. Includes 4 tube automatic case feeder, automatic primer feed, automatic powder measure and automatic indexing. No other press has all these features at this affordable price. The perfect press for the active shooter on a budget. Select this press if you have a good supply of quality fired cases.

PRO 4000 This 4 station progressive press allows reloading mixed range brass with ease. The user operated primer feed allows smooth uninterrupted operation when loading mixed and imperfect cases. The fourth station allows installation of the Lee Factory crimp die. This die "irons out" the defects and damage found in mixed range brass. If you have select components to reload, the extra station can be fitted with the New Inline bullet feeder. Push the primer trigger, pull the lever, and you're loading. Easy cartridge changeover with only die adjustments required.

SIX PACK PRO Among the heaviest progressive presses made. Stroke and powerful linkage easily reload longer rifle cartridges. Six stations allow for any brand of die use; extra operations like post sizing are done in the standard progression. Works great with inline bullet feeders; extra stations allow seating and crimping to be separate operations. Simple, dependable automatic indexing never requires adjustment. New primer feed device built-in; takes just seconds to change primer size. Primer feed tray eliminates the danger and time-consuming process of filling primer tubes one at a time. With the Lee system— just dump, shake and go. Only one tool required to change shell plates (it's included!) Included loaded round catcher and attach bracket features storage positions for shell plate and die wrenches. Universal case feeder included with a gatling style magazine that works with most handgun cases and shorter rifle cases.

Lee Breech Lock Reloader Press

INCLUDES THE BREECH LOCK SYSTEM

An outstanding value. Exclusive balanced lever that can't drop down to pinch your fingers. Unlimited hand clearance that only a "C" frame can offer. Works equally well with the right or left hand. Even if you already own a press, an extra press is always useful for decapping, bullet seating or bullet sizing.

Lee Breech Lock Hand Press

Features the Lee Breech Lock System. A full size hand held reloading press, yet the tool weighs only 1¾ pounds and costs so little you will want more than one. No matter how much equipment you have, it's great to have a portable hand press. No time is wasted mounting a tool to a work bench. When you're finished—just pack it away.

90685 73.00

BREECH LOCK RAM PRIME

Breech Lock Hand Press Kit

THE PERFECT PORTABLE RELOADING PRESS KIT

Begin reloading at once. No wasted time mounting to a work bench. Pack it all in the box when finished. Great for apartment dwellers or loading at the range. Dies sold separately.

KIT INCLUDES

BREECH LOCK
HAND PRESS
RAM PRIME
POWDER FUNNEL
CASE SIZING LUBE
90180 94.00

New, improved Breech Lock Ram Prime

Start priming in seconds, nothing to adjust.

Includes small and large priming assemblies, no tiny parts to fumble with or lose.

Effortless priming in the tightest pockets.

Uses any brand press shell holder.

Safe with all brands of primers.

Works in any Lee Breech Lock press or adapter.

91612 21.98

Lee Ram Prime

Primes on the press up-stroke for a more sensitive feel. Includes small and large priming assemblies; no tiny parts to fumble or lose. Fits all brands of presses. Use on old school presses, where you need to thread in dies.

90106 21.98

**"O" FRAME ...
MOST POPULAR
STYLE PRESS
BY FAR**

Breech Lock Challenger Press

The "O" frame press by design is the strongest and most popular style press by far. Large opening and long stroke handles the largest belted magnums with ease. The primer catcher is positive and routes the spent primers directly to the trash can. Priming is a dream with the LEE LEVER PRIME SYSTEM. Best of all, it includes the BREECH LOCK QUICK CHANGE DIE SYSTEM. Change dies instantly with a twist of the wrist; you'll never have to re-adjust your die.

Other features include all steel linkage with adjustable length lever. This same press would cost you more than twice as much from other manufacturers, and that's without all of the Challenger's features.

90588 117.00

BENCH PRIME PRESS KIT

Featuring all the components of the 50th Anniversary Kit, but we've replaced the SAFETY PRIME with the AUTO BENCH PRIME, along with 3 of the most popular Auto-Prime shell holders which work with over 60 different cartridges. This kit is ideal for those who want to prime on the workbench. If you purchase all components separately—it's a \$294.78 value.

91628 268.00

Shown on
optional Bench Plate.
Order #90251

50TH ANNIVERSARY KIT

A COMPLETE POWDER HANDLING SYSTEM with the most convenient and repeatable PERFECT POWDER MEASURE, plus the LEE SAFETY SCALE, the most sensitive, safest of all powder scales. Fill your cases with the POWDER FUNNEL.

Case Preparation tools include the LEE VALUE TRIM case trimmer to trim on your reloading press (order cartridge specific trim die separately on pg. 28), and a CUTTER & LOCK STUD to trim your cases. (Order cartridge specific case length gauge separately on pg. 28-29). The LEE CHAMFER TOOL chamfers the inside and outside of the case mouth, and a tube of premium SIZING LUBE is also included. A small and large PRIMER POCKET CLEANING TOOL completes the case preparation package.

But that's not all! You get the large and small SAFETY PRIME. Prime with push button convenience and is safe with all brands of primers. Never touch the primer from box to the case.

Purchased separately \$268.86 value 90050 229.00

Shown on
optional Bench Plate.
Order #90251

BREECH LOCK CHALLENGER KIT

Features the same components as the 50th Anniversary Kit, but we have replaced the Safety Prime with the New Auto-Prime and a set of three of the most popular Auto-Prime shell holders. This kit is for those who prefer to prime off the press.

If purchased separately—a \$282.78 value.

LEE CLASSIC CAST PRESS
90998 250.00

- ▶ The industry's largest opening, and longest stroke—handle adjusts to provide least travel of any press.
- ▶ Largest ram, 1½" diameter, supported by over 12 square inches of ram bearing surface.
- ▶ Spent primer disposal direct to trash can with attached tube.
- ▶ Powerful compound linkage with positive travel stop prevents press toggle or "cam over."
- ▶ Rigid cast iron construction in a classic "O" design for maximum strength. Baked powder coating is durable and makes a handsome addition to any reloading bench.
- ▶ Large, flat cored base with 3 mounting holes, mounts solid to any bench.
- ▶ Automatic primer arms with bottom of stroke priming for best feel. Includes both large and small priming arms. No more fumbling with tiny guides and springs when changing primer size.

THE WORLD'S MOST POPULAR TURRET PRESS

Lee Classic Turret Press

The sturdy iron base shows its Classic Cast roots. The long stroke allows rifle cases over three inches long to be loaded using the automatic index. Deactivate the Auto-Index and cases over 4 inches can be loaded. The rigid cast iron frame supports the ram with over 12 square inches of area. The industry's largest ram is drilled completely through to dispose primers in an attached clear PVC tube. Every primer is caught — guaranteed.

Instant change turrets are the same as the famous Lee Turret Press. The Classic Turret uses the Lee Lever Prime System · LPS and the optional Lee Safety Prime tool makes priming on the press a delight. If you like to own the best, then treat yourself to the Lee Classic Turret. The finest reloading system made.

LEE CLASSIC TURRET PRESS 90064 220.00

Lee Safety Prime

Makes priming on the press a delight. Never touch the primers from box to shell. Primer flip tray features a CAD designed flipping surface that instantly rights the primers. Change primer size in seconds. Primers are dispensed with a satisfying click of the primer feed trigger.

EXTRA TURRET, 4 HOLE
90269 15.00

A MACHINE THAT DOES IT ALL

This press has all the features of the award-winning Turret Press with the quality touches that make this the finest, most convenient press to own. The Classic Turret features the solid steel linkage of the Lee Classic Cast. Your first stroke of the hardwood gripped lever will convince you this is one solid, silky smooth press!

SPENT PRIMERS COLLECTED AND DROPPED INTO FLEXIBLE PLASTIC TUBE FOR EASY EMPTYING.

CLASSIC TURRET PRESS KIT

THIS KIT AND A SET OF LEE DIES IS EVERYTHING YOU NEED TO BEGIN RELOADING PISTOL AMMO. The Classic Turret Press is fast and convenient when loading handgun cartridges, with rates in excess of 250 rounds per hour possible.

The kit includes the Auto-Drum powder measure and powder measure riser, perfect for all handgun and rifle cartridges. Large and Small Safety Prime are included making on press priming a delight! Instant Change Turret makes changing calibers a snap. Deactivate the auto-index, and batch load the longest and largest rifle cartridges.

Complementing your press kit are the case conditioning tools to prepare your brass for loading. Includes Cutter, Lock Stud, Chamfer Tool, small and large Primer Pocket Cleaner, and a tube of Lee case sizing lube. Complete it with the cartridge specific Case Length Gauge. Verify your loads with the included Lee Safety powder scale.

Completing the kit is *Modern Reloading Second Edition*, 2021 revision with all new load data covering over 170 cartridges with more than 38,000 loads.

NOTE Rifle reloaders require **SHORT** or **LONG CHARGING DIE** | see page 33

VALUE TURRET PRESS

EQUIPPED WITH THE **LEE LEVER PRIME SYSTEM™**

Proven design with compound leverage. No spring in this turret design. The turret is locked into a solid steel ring with big rifle bolt type lugs. Exclusive design puts the lugs on the circumference so there can be no tipping. The linkage is so powerful that the largest magnum cases are sized with ease. Effort required is so small that the usual heavy bench is not essential. The Lee Turret Press has built-in primer disposal tube and a comfortable roller handle. Even if you do not need all of these features, why pay more for anything less?

Power and strength to spare, plus unequalled convenience. The Lee Turret Press is suitable for loading all rifle and pistol cases, but really shines when loading large quantities of handgun ammunition. This is the most convenient press made. Only a true progressive press is faster. Includes the LEE LEVER PRIME SYSTEM with large and small primer arms. Works with the Lee Safety Prime.

4 HOLE TURRET PRESS w/Auto Index 90932 160.00

Lee Safety Prime

Makes priming on the press a delight. Never touch the primers from box to shell. Primer flip tray features a CAD designed flipping surface that instantly rights the primers. Change primer size in seconds. Primers are dispensed with a satisfying click of the primer feed trigger.

Lee Value Turret Press Kit

The Value Turret Press, along with the Auto-Drum Powder Measure, produces top quality pistol ammo in a hurry.

A finished round with a few pulls of the lever. Disconnect the Auto-Index and it's large enough to handle monster belted magnum rifle cases. When it's time to change calibers, simply lock in a new turret and begin reloading in seconds. In addition to the Turret Press and Auto Drum Powder Measure, the kit includes the Lee Safety Scale, unmatched for sensitivity, a primer pocket cleaner, cutter and lock stud to trim the cases and a chamfer tool to deburr cases after trimming. Complete the case conditioning tools with the cartridge specific Case Length Gauge (see page 28).

A set of Lee Dies is all that is required to complete this reloading outfit. And all of this at a price that will allow you to pay for your investment in a matter of hours.

VALUE TURRET PRESS KIT 90928 260.00

WORK SMARTER, NOT HARDER

AUTOMATIC PROCESSING PRESS

NOTHING MAKES RELOADING MORE ENJOYABLE than clean and properly processed and prepared brass. The APP series takes the drudgery out of case preparation.

This is the first choice for the bullet caster or progressive high volume reloader. Size bullets, swage primer pockets, size and deprime cases at lightning speed. The APP is a frameless design giving you nearly unlimited visibility and hand clearance. The powerful compound toggle linkage operates with ease. The compact footprint mounts easily on any bench or table top with no lever under swing. Counter balanced lever prevents the handle from falling and pinching a finger. Integral single tube case and bullet feeder makes the APP the fastest single station press made. Accepts standard $\frac{7}{8}$ -14 dies and shell holders of any manufacture.

APP Press

INCLUDES PRESS, CASE/BULLET FEEDER,
SHELL HOLDER ADAPTER AND
CASE/BULLET FEED TUBE BOTTLE ADAPTER

installed.

DELUXE AUTOMATIC PROCESSING PRESS KIT

GIVES YOU THE SAME PRIMING CONVENIENCE Found only on expensive progressive reloading presses.

We started with the basic APP, added the Roller Handle, Universal Case Feed Magazine and the APP Deprime kit. Then we fitted the tool with the Patented automatic primer feed system. There is no priming system made that is as fast, effortless, or uniform as the APP primer.

Cases and primers are automatically fed. Primers are seated uniformly without "feel" or adjustments required. Safe with any brand or size of primer.

Change primer size in seconds. Simply twist out the priming chamber and swap out the pin and primer guide. **No shell holders required!**

When you're finished priming — simply twist out the priming tool and replace with the supplied shell holder adapter. Then you can use all the APP accessories available to Bulge Bust or Primer Pocket Swage.

BULGE BUSTER KIT

FOR THE LEE APP

INTAKE FUNNEL

380 10/40 45 ACP

Lee APP Bulge Buster Kit with appropriate Lee Factory Crimp Die

restores free function of rimless cases that have low base bulges. Low base bulges usually occur from chambers that do not fully support the cartridge or cases resized in carbide dies from manufacturers other than Lee.

APP BULGE BUSTER KIT 91572 30.00

See page 7 for corresponding FACTORY CRIMP DIE

PRIMER POCKET SWAGE KIT

DESIGNED EXCLUSIVELY FOR THE LEE APP PRESS

Now you can swage primer pockets as fast as you can operate the press lever

The fastest, most convenient way to swage primer pockets. Will swage large and small primer pockets on any case up to 2½ inches (30/06) long.

No shell holders required!

Large and small swage punches included.

Exclusive, case guided swage push die works without adjustment. It automatically aligns your case mouth to receive the push rod and six guide fingers center the primer pocket to the swage punch. Nothing to adjust—simply install and begin swaging.

Swage adjustment is a finger adjustable knob, no tools required.

APP PRIME IT 90237 60.00

TWO GREAT WAYS TO TRIM CASES QUICK TRIM OR CASE LENGTH GAUGE

FOR SAFETY SAKE, TRIM YOUR CASES

The simplest way to check the case and trim to the correct safe length is with a Lee Case Trimmer.

Lee Case Trimmer

After a case has been loaded a few times, it will stretch beyond maximum length and must be trimmed. There is no better system to check and trim cases than with the Lee Case Length Gauge and cutter. You don't need an expensive caliper to set length and never waste even a single case setting up with the cut and try system common to all other brands. The piloted cutter assures the case mouths are absolutely square and true to the case neck. Best of all, the fixed length design assures it will never go out of adjustment.

The Cutter and Lock Stud works for all calibers. You will need only one. The Case Length Gauge (Pilot) and Shell Holder must be ordered as Case Length Gauge and Shell Holder for each caliber — see chart listing at right and opposite page. You can trim cases by hand, use an electric drill.

CUTTER and LOCK STUD 90110 6.98
Fits cases up to .468" in diameter.
LARGE CUTTER & LOCK STUD 90401 9.98
Can be used on any case.

CUTTER only with BALL GRIP 90275 9.98

THREADED LARGE CUTTER AND LOCK STUD 90468 9.98
Large cutter with 8-32 thread shank for use on popular powered case preparation centers.

3 Jaw Chuck Trimming Kit

91720 31.00

Hex shank fits popular, low-cost cordless screwdrivers.

Universal 3 jaw chuck fits 25 ACP to largest belted magnums without changing shellholders.

Includes cutter and 3 jaw chuck.

Order cartridge specific case length gauge separately.

Trim brass to the correct length while chamfering the case mouth

QUICKTRIM

Lee Quick Trim Case Trimmer

The Deluxe Quick Trim Case Trimmer quickly and precisely trims your brass to the correct length at the same time it chamfers the inside and outside of the case mouth. No calipers, measurement or adjustment required. Simply install the appropriate quick trim die in your press and start trimming. A click adjustable stop allows trim length adjustment in .001 of an inch increments. Allows the user to shorten case to a uniform shorter length than standard, reducing trimming frequency. Includes snap on chip catcher. Order appropriate Quick Trim die for each cartridge listed on chart on upper right and opposite page. 90437 30.00

Ram Swage

Primer pocket swager works so fast that you'll want to swage all the range brass you pick-up. Works on all single stage presses with 7/8"-14 threads and accepts universal press shell holders. Features spring assisted case extraction, and an

all steel case guide, ensures cases will be positively centered on push rod. Shell holderless design, allows you to swage any small or large primer pocket, without swapping to a different size shell-holder.

Utilize all your brass by removing annoying bulge rings

BULGE BUSTER KIT shown mounted to Breech Lock Reloader Press (90045). Sold separately, pg. 18

LEE BULGE BUSTER

Assure your mixed brass is bulge free with the Bulge Buster Kit and appropriate Lee Carbide Factory Crimp Die. This push through die adapter will quickly remove the annoying bulge rings that shell holder constrained dies simply can't reach. The Bulge Buster Kit includes extension sleeve, push through punch, catch container and complete instructions. And it's fast — you can reprocess your cases as quickly as you can handle them. OFFPRESS PRIMING

AUTO BENCH PRIME

**THE EASIEST,
MOST CONVENIENT
BENCH MOUNTED
PRIMING TOOL EVER.**

Symmetrical design allows effortless right or left hand operation. Comfortable lever with just the right amount of mechanical advantage effortlessly seats even the most difficult primers with just finger pressure. Perfect mechanical advantage to feel the primer seating completely home into the primer pocket.

INCLUDES PRIMING ASSEMBLIES FOR LARGE AND SMALL PRIMERS. CHANGE PRIMER SIZE OR SHELL HOLDER IN SECONDS.

Auto Bench Prime
90700 **44.98**

Tray's built-in flipping surface quickly rights and orients primers—go from box to priming in seconds. Patented elevator pin safely isolates a single primer for priming. Allows most primer brands and types to be safely tray fed. The convenient hinged cover allows you to individually feed primers if restricted by the primer manufacturer.

INCLUDES THE PATENTED FOLDING TRAY —
GO FROM BOX TO PRIMING IN SECONDS. NO NEED
FOR A HEAVY BENCH; FITS THE LEE BENCH PLATE
OR MOUNT TO A BOARD FOR A PORTABLE SETUP.

New, removeable tray PATENTED

Unfold tray and place on top of box of 100 primers.

Flip tray over to deposit the primers.

Shake tray to upright all the primers. Fold and close cover.

Slide the flow control to LOCK.

INCLUDES THE NEW POWDER MEASURE BOTTLE ADAPTER

DELUXE PERFECT POWDER MEASURE

QUALITY CONSTRUCTION

This powder measure features a high pressure die cast, diamond-machined body. The precision-machined rotor drum is cast from brass, which is naturally anti-static and spark proof.

ELIMINATES CUT POWDER AND JERKY ACTION

A soft elastomer wiper strikes off the metering chamber rather than cut the powder. You'll be surprised at how smoothly the rotor operates. More importantly, you will enjoy the most uniform of charges.

EASY TO SET & READ MICROMETER METERING CHAMBER

Powder charge adjustment is accomplished with a true micrometer adjustable metering chamber. The metering chamber is aluminum with a black anodized finish. Features a crisp, permanent, laser engraved scale. The brass micrometer thimble is engraved with .01cc graduations and has a releasable detent lock. With most rifle powders each click is about a 1/10 of a grain, perfect for working up a load.

CHANGING POWDER IS FAST AND EASY

Features easily removable hopper with an on/off valve so you can quickly return unused powder to its original container or switch to another type. The hopper feeds to a pre-measuring chamber allowing precise charges regardless of the powder level in the hopper, eliminates the need for an extra powder baffle.

QUICK CHANGE DRUMS

One of the nicest features is the ability to use the new Lee standard quick-change drums (product # 90453). These low cost drums can be preset to your favorite charge and swapped out in seconds.

DELUXE PERFECT POWDER MEASURE 90699 92.00

NO POWDER MEASURE, REGARDLESS OF PRICE, HAS ALL THE FEATURES OF THE LEE DELUXE POWDER MEASURE

PERFECT FOR USE WITH THE DELUXE PERFECT POWDER MEASURE & AUTO-DRUM

QUICK CHANGE DRUM SET features four precision molded nylon drums. Two small capacity for cases as small as the 25 ACP, adjustable to 223 size rifle cases. Large capacity drums adjustable from 223 case to cases as large as the belted magnums. The large drums include an insert to allow reduced capacity charging like the small drum. All drums are infinitely adjustable within range. No tools required for adjustment. A graduated adjustment key is included with each drum. Each key is marked with .01cc graduations, allowing easy 1/10-grain powder adjustments.

Quick Change Drum Set 90453 20.00

POWDER MEASURE BOTTLE ADAPTER

POWDER MEASURE BOTTLE ADAPTER FITS ALL LEE POWDER MEASURES

Allows dispensing powder directly from the shipping container of most popular powder manufactures. Includes a crystal clear bottle that holds over a half a pound of ball powder. Works on all of these and many more.

(53mm or 43mm thread)

Dispensing powder directly from the bottle assures positive identification of the powder type.

Adapter is manufactured from

Polypropylene—resistant to attack from all

types of powder. Now you can turn off the powder flow and store your powder in its original container with no fear of misidentifying or damage to your hopper from chemical attack. Viewing window allows monitoring powder level in use without removing bottle.

Bottle Adapter 91586 8.00

Powder Measure Stand

Heavy, powder coated steel construction

7/8" mounting hole for all popular measures

Includes 3 no slip feet

Rock solid mount improves measure consistency

Space saving freestanding design is portable and convenient.

Works with other brands of powder measures

Powder Measure Stand 90587 55.00

Lee Safety Scale

Safety and accuracy are the most important features

This is the only scale that can never get out of adjustment. The beam is made from a very tough phenolic, the same type material used on table and counter tops. Phenolic is tough but, like glass, it can't be bent. Even if dropped you can feel confident that if it did not break it is still accurate. Sensitive and readable to 1 / 20 grain.

90681 46.98

READ THIS if you already have a combination bullet and powder scale

Try this simple test to see how sensitive your scale really is. Cut a piece of regular writing paper or this catalog 5/16 inch square. With scale set on zero — drop the paper on the pan to see if it moves. It should read about .1 grain. Keep adding paper squares until it does move. The total number of squares needed to move your scale is your scale's sensitivity. We have seen digital powder scales that are only sensitive to 1/2 grain (FIVE paper squares!) A Lee Safety Scale will move with the first paper.

Lee Powder Measure Kit

Fifteen uniformly graduated and proportioned powder dippers. Slide card shows the grains of powder each measure will dispense of every type of powder. Powder measures are inherently safe as they cannot get out of adjustment. That's why powder dippers continue to be the first choice of reloaders who load in small quantities.

90100 14.98

Powder Funnel

A large, unbreakable funnel that fits all cases from .22 to .45 caliber. Hole in flange permits mounting to the Lee Turret Press, shelf or bench.

90190 4.98

INCLUDES THE NEW POWDER MEASURE BOTTLE ADAPTER

The Original

Perfect Powder Measure

Almost as good as a scale!

Solves problems common to ordinary drum type measures. Gives you the confidence that your charges will be the most uniform possible.

Lee Perfect Powder Measure

Includes many of the features of the Deluxe Perfect Powder Measure, but the body is molded from an engineering grade polymer. Rotating micrometer adjustable metering chamber and elastomer wiper to prevent powder cutting. Works better than other powder measures priced four times as much.

90058 30.98

FREE STURDY STEEL MOUNTING BRACKET INCLUDED WITH EACH MEASURE

CHARGE CASES WHILE EXPANDING THE CASE MOUTH

"MODERN RELOADING" AND ALL POPULAR LEE DIE SETS INCLUDE LOAD DATA

Lee Pro Auto-Disk Powder Measure

Commercial reloaders or competitive shooters first choice! Elastomer wiper and polytetrafluoroethylene (PTFE) non-stick metal casting make this the smoothest operating measure. Large hopper with integral shut-off valve makes changing powder or disks super convenient. Brass thumbnuts attach the hopper to the body so you can change disks with no tools. Rubber wiper and seal prevents powder shearing and makes it more leak-resistant with fine-grain powders. Increased safety with positive pull-back lever.

The measure is attached to the die with a swivel adapter, allowing easy positioning and quick removal when changing cartridges. Included positive pull back lever reduces the chance of double charge when progressive reloading.

Lee Pro Auto-Disk Powder Measure
INCLUDES ALL FOUR DISKS
90429 60.00

PRO AUTO-DISK POWDER MEASURE	
CARTRIDGE RANGE	9 MM TO 45 COLT
USE	IDEAL FOR HANDGUN

CONSISTENCY	EXTREMELY CONSISTENT INCREMENTAL CHARGES
WIPER TO PREVENT POWDER SHEARING	YES
SWIVEL ADAPTER FOR FAST, EASY TRANSFER	YES
ON/OFF VALVE	YES

The Pro Auto-Disk comes with a complete set of four disks. Each disk has six cavities, so you get 24 cavities in all. The chart included on the rear of the instruction sheet lists the capacity of each cavity with every type of powder. If you reduce your charge 10% you can safely use this data without weighing your charge. Fixed cavities are the safest way to meter powder because they can't be misadjusted or get out of adjustment.

PRO AUTO-DISK ACCESSORIES

Adjustable Charge Bar

Infinitely adjustable between .28 and 1.6 cc. Lifetime nylon with solid brass, zero backlash micrometer. Easy to set.

Adjustable Charge Bar
90792 9.98

Double Disk Kit (not pictured)

This kit raises the hopper so you can stack two disks. Not only doubles the capacity of the disks but it makes very fine adjustments possible. Most powders can be adjusted up or down .1 grain with different combinations of disks. Complete listing of combinations, 4 extra disks, screws and risers are included.

Lee Double Disk Kit
90195 14.98

Lee Rifle Charging Die Kit

Short and Long Charging Dies are included. These dies work the same as the pistol powder through expanding dies, except they do not expand the case mouth. Rifle case expansion is done in the sizing die. Can be used on 22 caliber, and up to the largest belted magnums.

Charging Die kit
90995 29.00

22 HORNET TO 223 REM
90668 16.98

LONG CHARGING DIE
223 REM TO 300 WIN MAG
90194 16.98

AUTO DRUM

Automatic case actuated drum powder measure. Accurately and automatically dispense powder in your favorite cartridge. Two infinitely adjustable drums included. Quick Change drums will accurately and reliably drop charges from 1 to 80 grains of powder.

INCLUDES THE NEW POWDER MEASURE BOTTLE ADAPTER

Case actuated; never spill a charge.

Exclusive elastomer wiper prevents powder shearing, works great with difficult metering extruded powders.

Machined body with labyrinth groove mates to precision molded nylon drums providing leak free fit with the finest powders.

Drum is actuated by a steel sector and pinion gear train.

Quick-change hopper has on/off valve Sleek modern design, all gears springs and levers inside the die cast housing.

Same swivel adapter as our famous Pro Auto-Disk powder measure. Makes moving measure fast and convenient.

HANDGUN AND RIFLE DRUMS INCLUDED.

Powder Measure Riser

Installs between the Lee Powder through Expanding Die or Rifle Charging Die and Powder Measure. Allows convenient use of other brands of dies that have extended adjusting screws and provides clearance for the Lee Safety Prime.

Powder Measure Riser
90041 9.98

POWDER THROUGH EXPANDING DIE pg. 8

NOTE Pro Auto-Disk and Auto-Drum Powder Measures must be used with the powder through expanding die supplied with all Lee pistol dies, or Lee Rifle Charging Dies (see left). These dies may be purchased individually. Sizes listed on page 8.

Only Lee Dies permit charging the case while expanding the case mouth.

www.leeprecision.com

Lee Pro 4-20

Large diameter high capacity pot, holds approximately 20 pounds of lead. Nearly 4 inches of clearance under the spout accepts all brands of bullet molds and most sinker molds. It also includes an adjustable mold guide to quickly and accurately position any mold for pouring.

This second generation design incorporates the famous Lee patented high-efficiency design and dependable remote sensing thermostat, in a dust tight housing. Long life 700-watt tubular heating element assures quick melting and rapid recovery. Micro adjustable, flow control valve adjusts instantly with a twist of the screwdriver. Front mounted low maintenance replaceable valve spout allows instant reseating with a turn of a screwdriver.

LEE PRO 4-20	90947	110 Volt	120.00
EXPORT MODEL	90948	220 Volt	126.00

Lee Precision Melter

High speed melter with an infinite heat control for the budget caster. Easily handles 4-cavity molds. Takes less than 15 minutes to melt 4 pounds of metal. Same infinite heat control as used on the Production Pot. 500 watts AC only. Guaranteed 2 years.

PRECISION MELTER, 110V	90021	70.98
EXPORT MODEL, 220V	90024	74.98

LEE MOLD MALLET

Features ash hardwood construction. Cut the sprue and release the bullets with one handy tool. Ergonomic design makes it convenient and comfortable to use with long casting sessions. Mallet is 10 inches long.

90084 10.00

UNIQUE INFINITE HEAT CONTROL

A highly reliable control, mounted away from the high heat of the pot. Eliminates failures usually associated with thermostatically controlled units. Thermal feed back to the infinite control permits heater to put out full power until metal has melted.

Magnum Melter

Large 4" diameter pot allows easy access for the ladle caster. Same high efficiency design that has made Lee pots the most popular. Melt time is less than 20 minutes with just 700 watts. 20-lb. capacity for the longest casting session.

Magnum Melter	110 Volt	90949	93.00
---------------	----------	-------	-------

LEE MAKES BULLET CASTING EASIER

Lee Production Pot IV

Large, deep pot holds approximately 10 pounds of lead. Melt time is less than 20 minutes. Pour spout up front where it belongs so you can see what you're doing. Infinite heat control. Uses only 500 watts of power during heat-up and a lot less to maintain temperature. Large, stable base for safety. 4" of clearance under the spout is high enough to accept all brands of bullet molds and most sinker molds.

PRODUCTION POT IV	110 VOLT	90009	106.98
EXPORT MODEL	220 VOLT	90008	110.98

LEE INGOT MOLD

Use to cast 1/2 and one pound ingots. Perfect for remelting and alloying. Wood handles stay cool. Aluminum mold is lightweight and rustproof.

90029 24.98

LEE LEAD LADLE

A convenient size ladle for bullet casting. Works equally well for right and left handers. Handy for skimming and stirring metal.

90026 8.98

WARNING Melting lead and casting lead objects will expose you and others in the area to lead, which is known to the State of California to cause reproductive harm and cancer. For more information, www.P65Warnings.ca.gov. See instructions on REDUCING EXPOSURE supplied with product.

BREECH LOCK SIZING

Bullet Sizer and Punch 12.00

Compact bullet sizer made from high carbon steel. The bore is specially tapered to reduce sizing effort. Most important, taper gently and precisely reduces bullet to the correct diameter. It never damages your powder or liquid coating by shaving. The punch snaps into any reloading press shell holder slot. The steel punch pushes on the base of the bullet so there is no possibility of nose distortion. Plus, the nose first sizing allows gas checks to be seated and crimped in one operation.

BE SURE TO ORDER THE BREECH LOCK KIT TO SUIT YOUR NEEDS

Breech Lock Bullet Sizer Kit

Works in any Breech Lock Press
Uses inexpensive bullet sizer and punch.
Great for the casual reloader

INCLUDES BOTTLE that holds 100 bullets. Adapter also fits most powder containers for larger capacity.

Breech Lock Bullet Sizing Kit
91532 20.00

RELOADER PRESS shown with Breech Lock Bullet Sizer installed
PRESS NOT INCLUDED

Inline Bullet Sizer Magazine Filler Kit

Kit contains everything you need to use the Bullet sizer and punch with the Lee Inline Bullet Feed magazine. Now you can size bullets and simultaneously fill the Lee Gatling style magazine feeder. The system works so well—once your bullet is sized you will never touch it again. Simply transfer filled magazine to press and start loading. Includes small, medium & large magazines with matching drop tubes and supports, Breech Lock bullet sizer and special adapter. Works with .220 to .463 diameter bullets. Order bullet sizers and punches at left. Use QR code to see expanded list of sizes.

Classic Bullet Sizing Kit

The kit that made nose first bullet sizing affordable for over a generation. Standard 7/8-14 threads fit most reloading presses. Bullets are pushed through nose first so no special nose punches are required. The included punch snaps into any standard press ram. Gas checks are automatically seated and crimped in place. Sized bullets captured in the provided special container. COMPLETE FOR ONE SIZE 25.98

NOTE ALL BULLETS MUST BE LUBRICATED OR POWDER COATED FOR SIZING. ORDER LEE LIQUID ALOX BELOW

Other sizes can be made on a custom basis. Scan QR code for details.

LUBRICATING BULLETS

Lee Liquid Alox

Lee Liquid Alox gives better accuracy because it eliminates leading. The lube coats the entire bullet like a thin jacket and dries to a soft, varnish-like finish that really clings. The dried coating does not degrade gunpowder. Easy to apply; eliminates the need for sizing of most cast bullets. While it works well with all cast or swaged bullets better than any other lube, it works most economically with micro band bullets, which are designed for tumble lubing.

4 OZ. DISPENSER BOTTLE 90177 9.98
Enough for thousands of bullets

Try this
with your
bullet
lubricant

The bullet melts while the Lee Liquid Alox clings tenaciously to the bullet

Traditional bullet lubricating methods of placing lube only in the grooves are inferior to the modern method of coating the entire bullet with Lee Liquid Alox. This places the lube where needed, on the surfaces that rub against the bore.

Gently shake bullets in an orbital motion to coat the bullets. If they do not coat completely, add a little more lube.

Spread bullets onto waxed paper and let dry overnight.

Universal Case Expanding Die

Gently flares the case mouth to accept cast bullets without shaving. Works great to prevent damaging the moly and low friction coatings found on today's high performance jacketed bullets. Includes neck plugs for .22 cal through .45 cal. Works on everything from the 22 Hornet to the largest Ultra Mag. Costs so little and works so well you can't afford to be without one.

90798 18.00

Hardness Testing Kit

Featured product in Chapter 10 "Modern Reloading." No more wasted components shooting too soft or too hard lead. Cast and load with confidence knowing your alloy is up to the job. Quickly and precisely check hardness of your lead alloy. Exclusive conversion chart tells the maximum operating pressure of any lead alloy.

LEE MOLD BLOCKS MADE FROM ALUMINUM BECAUSE OF THE EXCEPTIONAL MOLDING QUALITIES

MOLD CAVITIES CNC-MACHINED FOR UNMATCHED ROUNDNESS AND SIZE CONTROL

MOST BULLETS FROM LEE MOLDS CAN BE USED AS CAST WITHOUT SIZING

TRADITIONAL GROOVE

This type of lubrication groove is designed for old style hard lubricants. Also works well with Lee Liquid Alox.

MICRO BAND GROOVE FOR LIQUID ALOX #90177

The reduced friction of the micro bands allow a higher velocity with the same pressure as conventional lube grooves.

DOUBLE CAVITY MOLDS

Handles and sprue plate included.

44.98

HOLLOW BASE MOLDS

These are available in single cavity only. They have self centering automatic core pins for the fastest possible molding. Handles and sprue plate included.

55.98

SIX CAVITY COMMERCIAL QUALITY MOLDS

These are made for heavy duty volume production. The mold blocks have steel bushing and alignment pins for lasting precision. Price includes a cam operated sprue plate to eliminate the pounding common to ordinary molds. The sprue plate is hard anodized and held down with wave washers at each end. No finer mold can be purchased at any price. Handles extra.

65.00

MOLD HANDLES

Precision steel mold handles fit not only the Lee Six Cavity molds and 18 Cavity Buckshot molds, but most other brands of one and two cavity molds. Priced low enough so you can have a set for every pair of blocks.

90005

27.98

MICRO BANDS USUALLY REQUIRE NO SIZING

The bullet shank has many shallow grooves for maximum liquid lubricant retention. A great way to make bullets in quantity with minimum time, effort and equipment. More accurate than ordinary cast bullets. The reduced friction of the micro bands gives you more velocity with less pressure.

CUSTOM MOLDS We can produce custom bullet molds within certain limits. The prices are the same as our standard molds, but there is a tooling and set-up charge. If interested in this service, please access design assistance sheet on www.leeprecision.com. This outlines the basic limitations of our manufacturing process.

<https://leeprecision.com/files/instruct/MoldDesignAssistance.pdf>

WARNING Melting lead and casting lead objects will expose you and others in the area to lead, which is known to the State of California to cause reproductive harm and cancer. For more information, www.P65Warnings.ca.gov. See instructions on REDUCING EXPOSURE supplied with product.

Minie Bullet Mold

Automatic Core Pin Mold. Open mold upside down to empty. Close it and you're ready to cast the next. The core pin automatically centers in the mold. Easily cast 200 per hour. A quality mold built to last as long as your rifle.

COMPLETE w/ HANDLES and AUTOMATIC CORE PIN 55.98

Round Ball Molds

Have tangential cut off which eliminates the objectional nib at the sprue.

DOUBLE CAVITY WITH HANDLES 44.98
6-CAVITY WITHOUT HANDLES 65.00

SIZE	DOUBLE	SIZE	DOUBLE	SIZE	DOUBLE

Cast Minie Bullets as fast as Round Balls

Improved Minie, Traditional Design

45 Cal.	.450-294M	90467
45 Cal. oversize	.454-298M	90469
50 Cal.	.500-360M	90472
54 Cal.	.533-410M	90473
54 Cal. oversize	.540-415M	90474
58 cal.	.575-472M	90476
58 cal. oversize	.578-478M	90478

Improved design is easier to cast and load. Usually more accurate; a wider variety of sizes.

Modern Minie, Target Design

50 Cal.	.500-354M	90471
---------	-----------	-------

The most accurate of all Minies. Makes nice, clean holes in the target. The first choice for highest scores.

Original Style Minie Bullet

58 Caliber	575-500M	90481
------------	----------	-------

An extremely popular, traditional size Minie bullet. Available in 58 caliber only. Certainly a must for authentic muzzle loading shooting.

RIFLING • ENGRAVED • AT • LOADING

A solid bullet that loads easily even after many firings because of its unique cleaning action. Will not tumble. A perfect hunting bullet with heavy loads. Easy to cast. Shoots accurately even in greatly oversize barrels.

DOUBLE CAVITY WITH HANDLES 44.98

RIFLING-ENGRAVED-AT-LOADING

The driving bands are large enough to adequately engage the rifling when pushed into the muzzle, and thin enough to easily engrave. They're strong enough to withstand maximum charges without stripping or gas cutting.

UNIQUE CLEANING ACTION You can shoot all day without cleaning your rifle between shots! When inserted into the muzzle, tiny scraping edges are swagged forward on each driving band. These perfect fitting scrapers remove the fouling from the previous shot.

EASIER, FASTER TO LOAD It's easy to load straight and true, easier and faster than a round ball with patch. Easily stabilized with very light

charges, the R-E-A-L bullet also retains accuracy with maximum loads. Each band is generously tapered to the rear with an angle close to that of a lathe center, so as to center the bullet against the rifle bands. When pushed in, the bullet automatically centers in the bore.

MORE ACCURATE The bevel base of the R-E-A-L bullet contributes to greater accuracy. When the bullet exits the bore, the gas escapes equally around the perimeter of the base. The uniform bevel is resistant to nicks that would permit gas to escape prematurely and cause a jet effect on one side of the bullet.

Conical Bullet Mold FOR BLACK POWDER REVOLVERS

A super accurate bullet that is easy to load straight and true. Two lube grooves prevent flash ignition and lead fouling. More energy and far greater accuracy than round balls.

44.98
DOUBLE

36 Cal.	375-130-1R	90378
44 Cal.	Rem. 450-200-1R	90382

WARNING Melting lead and casting lead objects will expose you and others in the area to lead, which is known to the State of California to cause reproductive harm and cancer. For more information, www.P65Warnings.ca.gov. See instructions on REDUCING EXPOSURE supplied with product.

Combo Molds

45 CAL 200RB with Handles 44.98
90405

Double cavity mold casts one 45 Cal. 200 R-E-A-L bullet and one .440 diameter Round Ball.

50 CAL 320RB with Handles 44.98
90488

Double cavity mold casts one 50 Cal. 320 R-E-A-L bullet and one .490 diameter Round Ball.

LOAD SLUGS FOR LESS THAN STANDARD TRAPLOADS

Lee Slug Mold

Load slugs for less than standard trap loads. The Lee DRIVE KEY slug is loaded in standard trap hull with standard wad and conventional folded crimp. Slug loads are produced with any standard shot shell reloading press.

Lee Slug Mold features the exclusive drive key. The drive key positively rotates the slug in rifled shotgun barrels and doubles as a support rib allowing use of a standard trap wad—no need for a support wad or base filler. Sabot wad design outperforms rifled slugs in rifled slug barrels. Velocity and accuracy meet and exceed expensive factory loaded rifled slugs. Molds feature self centering automatic core pins for maximum speed and convenience. Mold is complete with sprue plate, handles and complete instructions with suggested loads.

Shotgun Slug Mold	1 oz.	12 ga.	90281	55.98
Shotgun Slug Mold	7/8 oz.	12 ga.	90282	55.98

EXCLUSIVE DRIVE KEY POSITIVELY ROTATES THE SLUG IN RIFLED BARRELS AND ELIMINATES THE NEED FOR SUPPORT WADS OR BASE FILLERS; ASSURES POSITIVE AND SMOOTH DISCARD OF THE SABOT WAD.

GUARANTEED MORE ACCURATE
than factory slugs or your money back

18 CAVITY BUCKSHOT BULLET MOLDS

Lee 18 Cavity Buckshot Bullet Molds

Precision-machined molds produce 18 linked pellets per cast. Each cast produces enough pellets to load two 12 Gauge shotshells. Easily cast 3,000 pellets per hour. Handles shown not included. Order product No. 90005 on page 36.

Ball diameter .240 #4 BUCKSHOT	90028	77.00
Ball diameter .330 00 buckshot	90486	
Ball diameter .360 000 Buckshot	90192

LOAD SHOTGUN SHELLS, STEEL OR LEAD SHOT, TO LOOK AND SHOOT LIKE NEW

Lee Load-All II

Lee Load-All II shotgun shells not only look better than those loaded on machines costing hundreds of dollars, but they usually have more uniform velocity and patterns. You can load just as fast as with any other brand of loader costing up to \$200.

Twenty-four shot and powder bushings are included free. The bushings alone can cost several dollars each from other manufacturers— and they're not as accurate as those made by Lee. Only Lee supplies molded bushings.

This is a time proven tool. There are hundreds of thousands in use world wide: in nearly forty years, we have yet to see one worn out. Written two-year unconditional guarantee and a lifetime warranty.

20 GAUGE	90012

Load-All Options

Conversion To Another Gauge

The Load-All II can be easily and economically converted to another gauge with the conversion kit. The entire die carrier is replaced so no adjustments are needed. The conversion kit includes the die carrier, steel sizer, wad guide, shell holder, load data and instructions.

16 GAUGE	90071
20 GAUGE	90072

Lee Adjustable Shot Dipper

Accurately measure lead, bismuth and steel. Telescoping cup adjustable from 7/8 to 1 1/8 oz. Calibrated for lead shot. Works perfect for large pellet sizes. With steel, simply count out the pellets or weigh and set dipper accordingly.
